

**REISSUE APPLICATION DECLARATION BY THE INVENTOR**

Docket Number (Optional)

97084-00026

I hereby declare that:

Each inventor's residence, mailing address and citizenship are stated below next to their name.

I believe the inventors named below to be the original and first inventor(s) of the subject matter which is described and claimed in patent number 6301967, granted October 16, 2001 and for which a reissue patent is sought on the invention entitled Method and Apparatus for Acoustic Detection and Location of Defects in Structures or Ice on Structures, the specification of which

☐ is attached hereto.

☒ was filed on \_\_\_\_\_ as reissue application number \_\_\_\_\_ and was amended on \_\_\_\_\_ (If applicable)

I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

☐ I hereby claim foreign priority benefits under 35 U.S.C. 119(a)-(d) or (f), or 365(b). Attached is form PTO/SB/02B (or equivalent) listing the foreign applications.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

☐ by reason of a defective specification or drawing.

☒ by reason of the patentee claiming more or less than he had the right to claim in the patent.

☐ by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening: In accordance with 37 C.F.R. 1.175, applicant specifies an error upon which this reissue application is based as follows. Original Claim 1 is believed to be rendered wholly or partly invalid by the inclusion of features directed to a device for detecting the presence and characteristics of a defect in a structure. Specifically, the inclusion of the phrase "a defect in or" in Claim 1 in every instance is believed to render such claim wholly or partly invalid.

This is a broadening reissue. See attached sheet for explanation as to the nature of the broadening.

**ATTACHMENT SHEET TO REISSUE APPLICATION**  
**DECLARATION BY THE INVENTOR(S)**

The nature of the broadening reissue is described as follows. Claim 1 is believed to be broadened in that the “means for creating and delivering a low frequency signal” has been replaced by “first transmitter means for transmitting a low frequency signal”. Similarly in Claim 1, the “means for creating and delivering a high frequency probe signal” has been replaced by “second transmitter means for transmitting a high frequency probe signal.” Claim 2 is believed to be broadened in that reference to moving the low frequency signal relative to the “receiver means” has been deleted. Claim 3 is believed to be broadened by deleting the “receiving means” therefrom. Claim 4 is believed to be broadened in that reference to moving “a point of delivery” of the low frequency signal has been deleted.

Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number.
